

THE JOURNAL OF HORTICULTURAL SCIENCE

BOARD OF EDITORS

Editor:

G. E. TIDBURY, B.Sc., A.R.C.S., A.I.C.T.A., F.I.Biol., B.S. of Z., East Malling Research Station, Maidstone, Kent ME19 6BJ.

Associate Editors:

- W. R. BUCKLEY, B.Sc., M.Sc., Department of Horticulture, University of Reading, Earley Gate, Whiteknights Road, Reading RG6 2AU.
G. P. CHAPMAN, Ph.D., Wye College, Nr. Ashford, Kent.
K. E. COCKSHULL, B.Sc., Ph.D., Glasshouse Crops Research Institute, Worthing Road, Rustington, Littlehampton, Sussex.
J. D. QUINLAN, B.Sc., Ph.D., East Malling Research Station, Maidstone, Kent ME19 6BJ.
A. R. REES, B.Sc., D.Sc., F.I.Biol., Glasshouse Crops Research Institute, Worthing Road, Rustington, Littlehampton, Sussex.
A. A. RUTHERFORD, M.Agr., Ph.D., East Malling Research Station, Maidstone, Kent ME19 6BJ.
P. J. SALTER, D.Sc., F.I.Biol., National Vegetable Research Station, Wellesbourne, Warwick.
W. W. SCHWABE, D.I.C., Ph.D., D.Sc., Wye College, Nr. Ashford, Kent.
I. W. SELMAN, D.Sc., Wye College, Nr. Ashford, Kent.
R. O. SHARPLES, B.Sc., Ph.D., East Malling Research Station, Maidstone, Kent ME19 6BJ.
C. E. TAYLOR, B.Sc., Ph.D., F.R.S.E., F.I.Biol., Scottish Crop Research Institute, Invergowrie, Dundee, Angus.
H. D. TINDALL, M.B.E., M.Sc., F.L.S., F.I.Biol., C.I.Agr.E., N.D.H., Silsoe College, Silsoe, Bedford, MK45 4DT.
L. D. TUKEY, B.S., M.S., Ph.D., Department of Horticulture, 103 Tyson Building, The Pennsylvania State University, University Park, PA 16802, USA.
D. VINCE-PRUE, Ph.D., M.S., N.D.H., Glasshouse Crops Research Institute, Worthing Road, Rustington, Littlehampton, Sussex.
P. D. WAISTER, B.Sc., Ph.D., Scottish Crop Research Institute, Invergowrie, Dundee, Angus.
S. J. WERTHEIM, DR. IR., Proefstation voor de Fruitteelt, Brugstraat 51, 4475 An Wilhelminadorp, The Netherlands.

PUBLICATION COMMITTEE

TABLE OF CONTENTS

THE JOURNAL OF HORTICULTURAL SCIENCE, VOL. 58

No. 1 (JANUARY 1983)

R. I. GRANGE and K. LOACH: Environmental factors affecting water loss from leafy cuttings in different propagation systems	1-7
R. I. GRANGE and K. LOACH: The water economy of unrooted leafy cuttings	9-17
G. L. BANSAL and K. K. NANDA: Effect of metabolic inhibitors of oxidative phosphorylation and of adenosine phosphates on rooting hypocotyl cuttings of <i>Phaseolus mungo</i>	19-22
A.-MARIE CHEVRE, S. S. GILL, A. MOURAS and G. SALESSES: <i>In vitro</i> vegetative multiplication of chestnut	23-29
M. S. KRISHNAPRAKASH, B. ARAVINDAPRASAD, C. A. KRISHNAPRASAD, P. NARASIMHAM, S. M. ANANTHAKRISHNA, S. DHANARAJ and V. S. GOVINDARAJAN: Effect of apple position on the tree on maturity and quality	31-36
M. T. LUTON and P. J. C. HAMER: Predicting the optimum harvest dates for apples using temperature and full-bloom records	37-44
P. F. KABLE: New fungicides for suppression of sporulation by <i>Monilinia fructicola</i> from overwintering sites in peach trees in spring	45-50
D. PENNELL, P. B. DODD, A. D. WEBSTER and P. MATTHEWS: The effects of species and hybrid rootstocks on the growth and cropping of Merton Glory and Merton Bigarreau sweet cherries (<i>Prunus avium</i> L.)	51-61
VICTORIA H. KNIGHT: The effect of donor species used in breeding on juice quality of black currants (<i>Ribes nigrum</i> L.)	63-71
D. GRAY and JOYCE R. A. STECKEL: Some effects of umbel order and harvest date on carrot seed variability and seedling performance	73-82
D. GRAY, JOYCE R. A. STECKEL and J. A. WARD: Studies on carrot seed production: effects of plant density on yield and components of yield	83-90
B. ALONI, B. BAR-YOSEF, B. SAGIV and E. PRESSMAN: The effect of nutrient solution composition and transient nutrient starvation on the yield and petiole pithiness of celery plants	91-96
P. A. POAPST and M. G. ANDERSON: Preharvest defoliation of rutabaga with ammonium peroxydisulphate and ethephon	97-101
G. I. MOSS: Root-zone warming of greenhouse tomatoes in nutrient film as a means of reducing heating requirements	103-109
S. MALIS-ARAD, S. DIDI, Y. MIZRAHI and E. KOPELIOVITCH: Pectic substances: changes in soft and firm tomato cultivars and in non-ripening mutants	111-116
D. L. STACEY: The effect of artificial defoliation on the yield of tomato plants and its relevance to pest damage	117-120
M. LOUKAS and C. B. KRIMBAS: History of olive cultivars based on their genetic distances	121-127
B. M. EL-ZEFTAWI and R. T. DIMSEY: Evaluation of abscission chemicals in various combinations for loosening Valencia oranges during re-greening	129-139
P. K. PATIL and V. K. PATIL: Effect of soil salinity levels on growth and chemical composition of <i>Syzygium cumini</i> L.	141-145
N. E. MEGURO and A. C. MAGALHÃES: Water stress affecting nitrate reduction and leaf diffusive resistance in <i>Coffea arabica</i> L. cultivars	147-152

P. J. C. HAMER: Evaporative cooling of apple buds: the effect of timing of water application on bud development and frost resistance of the cv Cox's Orange Pippin	153-159
RUTH M. CHURCH, B. K. COOKE and R. R. WILLIAMS: Testing the toxicity of fungicides to apple pollen	161-163
RUTH M. CHURCH, N. G. MORGAN, B. K. COOKE and R. R. WILLIAMS: The effects of spray volume on the toxicity of captan and dinocap to apple pollen in the orchard	165-168
RUTH M. CHURCH and R. R. WILLIAMS: The effects of pre-blossom fungicide sprays on the ability of Cox's Orange Pippin apple flowers to produce fruit	169-172
H. G. JONES, K. H. HIGGS and T. J. SAMUELSON: Calcium uptake by developing apple fruits. I. Seasonal changes in calcium content of fruits	173-182
H. G. JONES and T. J. SAMUELSON: <i>Idem</i> . II. The role of spur leaves	183-190
R. B. H. WILLS and F. M. SCRIVEN: Relation between germination of apple seeds and susceptibility of fruit to develop storage breakdown	191-195
S. S. SANDHU, B. S. DHILLON and J. S. RANDHAWA: Chromatographic estimation of sugars from the components of developing fruits of early- and late-maturing peach cultivars	197-202
S. S. SANDHU, B. S. DHILLON and S. SINGH: Starch and total water-soluble carbohydrates in the developing fruits of early- and late-maturing peach cultivars	203-207
S. LAVEE, A. HASKAL and Y. BEN TAL: Girdling olive trees, a partial solution to biennial bearing. I. Methods, timing and direct tree response	209-218
R. FERNÁNDEZ-ESCOBAR, G. GOMEZ-VALLEDOR and L. RALLO: Influence of pistil extract and temperature on <i>in vitro</i> pollen germination and pollen tube growth of olive cultivars	219-227
M. KLUNGNESS, R. THORP and D. BRIGGS: Field testing the germinability of almond pollen (<i>Prunus dulcis</i>)	229-235
D. BRIGGS, R. THORP and M. KLUNGNESS: Artificial pollination of almonds, <i>Prunus dulcis</i> , with bouquets monitored by fruit set and pollen germination	237-240
A. SUGIURA, I. KATAOKA and T. TOMANA: Use of refractometer to determine soluble solids of astringent fruits of Japanese persimmon (<i>Diospyros kaki</i> L.)	241-246
H. M. LAWSON and J. S. WISEMAN: Techniques for the control of cane vigour in red raspberry in Scotland: effects of timing and frequency of cane removal treatments on growth and yield in cv Glen Clova	247-260
H. G. JONES and K. H. HIGGS: Cell sap osmotic potentials and frost tolerance in black currants (<i>Ribes nigrum</i> L.)	261-266
P. I. ORPHANOS: Germination of caper (<i>Capparis spinosa</i> L.) seeds	267-270
E. PUTIEVSKY: Effects of daylength and temperature on growth and yield components of three seed spices	271-275
R. R. B. LEAKEY: Stockplant factors affecting root initiation in cuttings of <i>Triplochiton scleroxylon</i> K. Schum., an indigenous hardwood of West Africa	277-290
D. A. HOLLAND: Maximizing the effectiveness of a plant analysis unit	291-294

D. S. SKENE, H. R. SHEPHERD and B. H. HOWARD: Characteristic anatomy of union formation in T- and chip-budded fruit and ornamental trees	295-299
H. G. JONES, M. T. LUTON, K. H. HIGGS and P. J. C. HAMER: Experimental control of water status in an apple orchard	301-316
D. S. JOHNSON, G. R. STINCHCOMBE and K. G. STOTT: Effect of soil management on mineral composition and storage quality of Cox's Orange Pippin apples	317-326
RUTH M. CHURCH and R. R. WILLIAMS: Comparison of flower numbers and pollen production of several dessert apple and ornamental <i>Malus</i> cultivars	327-336
R. R. WILLIAMS and RUTH M. CHURCH: Growth and flowering of ornamental <i>Malus</i> pollinators in apple orchards	337-342
RUTH M. CHURCH and R. R. WILLIAMS: Comparison of the compatibility and metaxenia effects of several dessert apple and ornamental <i>Malus</i> cultivars with Cox's Orange Pippin	343-347
RUTH M. CHURCH, R. R. WILLIAMS and LYN ANDREWS: Comparison of flowering dates and pollen release characteristics of several <i>Malus</i> cultivars used as pollinators for Cox's Orange Pippin apple	349-353
R. M. D. BOYLE and B. J. R. PHILOGÈNE: The native pollinators of an apple orchard: variations and significance	355-363
R. D. CHILD and R. R. WILLIAMS: The effects of the interaction of aminoethoxyvinylglycine (AVG) with mixtures of growth regulators on fruit set and shape in Cox's Orange Pippin apple	365-369
J. N. KNIGHT: Translocation properties of carbaryl in relation to its use as an apple fruitlet thinner	371-379
K. M. JONES, T. B. KOEN and R. J. MEREDITH: Thinning Golden Delicious apples using ethephon sprays	381-388
P. K. AGARWAL: Effect of storage in organic solvents on the germination of grapevine pollen	389-392
D. GRAY and JOYCE R. A. STECKEL: Seed quality in carrots: the effects of seed crop plant density, harvest date and seed grading on seed and seedling viability	393-401
J. NOTHMANN, I. RYLSKI and M. SPIGELMAN: Floral morphology and position, cluster size and seasonal fruit set in different eggplant cultivars	403-409
D. A. HALL: The influence of nitrogen concentration and salinity of recirculating solutions on the early-season vigour and productivity of glasshouse tomatoes	411-415
N. L. BIDDINGTON and BRENDA LING: The germination of watercress (<i>Rorippa nasturtium-aquaticum</i>) seeds. I. The effects of age, storage, temperature, light and hormones on germination	417-426
N. L. BIDDINGTON, BRENDA LING and A. S. DEARMAN: <i>Idem</i> . II. The relationship between seed colour and germination	427-433
M. BARGHCHI and P. G. ALDERSON: <i>In vitro</i> propagation of <i>Pistacia vera</i> L. from seedling tissues	435-445
BHAGEERATHY CHEMPAKAM: Distribution of ascorbic acid and ascorbic acid oxidase activity in the developing cashew apple (<i>Anacardium occidentale</i> L.)	447-448
D. K. TANDON and S. K. KALRA: Changes in sugars, starch and amylase activity during development of mango fruit cv Dashehari	449-453
C. C. WEBSTER: Ernest E. Cheesman	455

ANA M. VIEITEZ, A. BALLESTER, M. LUISA VIEITEZ and E. VIEITEZ: <i>In vitro</i> plantlet regeneration of mature chestnut	457-463
J. N. KNIGHT: Chemical defoliation of nursery stock. II. The use of 2,3-dihydro-5,6-dimethyl-1,4 dithiin-1,1,4,4-tetroxide (N252) and other growth regulators on St. Julien A plum rootstock and <i>Quercus rubra</i>	465-469
J. N. KNIGHT: Chemical defoliation of nursery stock using chelated forms of copper and iron	471-476
G. R. STINCHCOMBE and K. G. STOTT: A comparison of herbicide- controlled orchard ground cover management systems on the vigour and yield of apples	477-489
P. WOODGATE-JONES and T. HUNTER: Integrated control of <i>Chondro- stereum purpureum</i> in plum by treatment of pruning wounds ...	491-495
P. MILLER: The use of Promalin for manipulation of growth and cropping of young sweet cherry trees	497-503
G. K. GOLDWIN and A. D. WEBSTER: The cumulative effects of hormone mixtures containing GA ₃ , DPU plus NOXA, NAA or 2,4,5-TP on the cropping and flowering of sweet cherry cultivars, <i>Prunus avium</i> L.	505-516
R. E. BYERS and C. G. LYONS, JR: Chemical peach thinning with surfac- tants and ammonium nitrate	517-519
M. KNEE, S. M. SMITH and D. S. JOHNSON: Comparison of methods for estimating the onset of the respiration climacteric in unpicked apples	521-526
D. S. JOHNSON and U. ERTAN: Interaction of temperature and oxygen level on the respiration rate and storage quality of Idared apples ...	527-533
E. KEEP, W. H. GRAFTON, V. H. KNIGHT and I. G. CUMMING: The response of black currant cultivars and selections to spring frosts ...	535-540
M. G. BEECH: The induction of parthenocarpy in the strawberry cultivar Redgauntlet by growth regulators	541-545
A. S. NANDI, B. SEN GUPTA and S. P. SEN: Utility of phyllosphere N ₂ -fixing microorganisms in the improvement of growth of some vegetables	547-554
M. O. A. FAWUSI, D. P. ORMROD and A. M. EASTHAM: Effects of levels of photosynthetically active radiation on the growth of <i>Amaranthus hybridus</i> and <i>Celosia argentea</i>	555-559
D. C. E. WURR and JANE R. FELLOWS: The effect of the time of seedling emergence of crisp lettuce on the time of maturity and head weight at maturity	561-566
G. SLACK and D. W. HAND: The effect of day and night temperatures on the growth, development and yield of glasshouse cucumbers ...	567-573
A. DE KONING and R. G. HURD: A comparison of winter-sown tomato plants grown with restricted and unlimited water supply	575-581
E. PUTIEVSKY: Temperature and daylength influences on the growth and germination of sweet basil and oregano	583-587
A. J. PASSEY and O. P. JONES: Shoot proliferation and rooting <i>in vitro</i> of <i>Theobroma cacao</i> L. type Amelonado	589-592
E. COHEN, M. SHUALI and Y. SHALOM: Effect of intermittent warming on the reduction of chilling injury of Villa Franka lemon fruits stored at cold temperature	593-598
